## Frontend Developer (React.js)

 vijayshete178@gmail.com    7558544763    www.linkedin.com/in/vijaykumarshete

### About Me

Frontend developer with over 3.3 years of React.js experience. Skilled in building responsive, scalable interfaces and integrating APIs, with a strong track record of solving problems and delivering results in cross-functional teams.

### Professional Experience

- Persistent Systems**, Senior Software Engineer, CTO Unit Jun 2022 – Present
- **Scalable Solutions:** Designed and delivered the **PiBox App** frontend using React.js, scaling to support over 250 teams and 2,000+ participants. Leveraged micro-frontend architecture to enhance modularity and scalability.
  - **Rapid Development:** Delivered fully functioning frontend and API integration for **Doc-Intel** using React.js. Completed project in record time, earning praise for efficiency and quality.
  - **AI Integrations:** Developed the frontend and integrated advanced APIs for AI applications, including LLM streaming APIs for **Netsynx**, an agentic AI network management tool enabling real-time AI-driven operations, and A2A protocol APIs for **Agent Studio**, a low-code platform facilitating seamless communication between AI agents.
  - **Frontend Optimization:** Enhanced UI scalability and reduced load times by 30% using lazy loading, code splitting, and caching, leading to an improvement in Core Web Vitals scores.
  - **Collaborative Development:** Worked closely with designers and backend developers to ensure pixel-perfect designs and consistent user experiences across devices and browsers.
  - **Testing & Code Reviews:** Participated in code reviews and implemented React-Jest-DOM testing, reducing critical issues by 25%. Proficiently used Chrome DevTools for performance analysis and debugging
  - **Attractive designs and animations:** Built Gen AI Studio, a touch-screen web app with animations to deliver an engaging user experience.
  - Built and optimized user interfaces for diverse web applications using React.js, Tailwind CSS, and Redux. Delivered dynamic features through **reusable components**, API integration, and advanced state management.

### Education

**Bachelor of Engineering**, Savitribai Phule Pune University Jun 2018 – Jun 2022  
CGPA: 8.87

### Skills

#### Frontend Development

React.js, Redux, CSS, Tailwind CSS, Material UI, HTML

#### Languages

JavaScript, C++, C, Python, SQL

#### Tools & LCNC Platforms

Cursor AI, Chrome DevTools, Appian (Basic), OutSystems (Basic), Power Apps (Basic)

#### Version Control & Testing

Git, GitHub, Azure DevOps, React Jest Dom

### Certificates

**Java Fullstack (React) Certification** — Persistent Systems

### Awards

- Annual Award** 2025  
Received annual award for dedication and excellence in DocIntel project.
- High Five** 2025  
Received team award for UI redesign on GenAiHub & Agent Studio
- Bravo** 2024  
Received the Bravo team award for outstanding contributions to PiBox tool development, enabling at-scale implementation and support at Semicolon 2024.
- High Five** 2023  
Received High Five team award for exceptional work.
